Answer prompts 1-5 below in English to help you process your French learning progress using the virtual experience of ImmerseMe:

1. Why did you select this particular **ImmerseMe category**? Why did this lesson in particular appeal to you?

Going to a restaurant is something we all do fairly often and its important to discuss ordering, paying, and other important aspects of eating out. I always want to make sure Im being as respectful and pleasant as possible.

2. Which scaffolded learning mode from ImmerseMe was most helpful to you this week (**pronunciation, writing/dictation, translation, immersion**). What specific aspects of the lesson made it helpful to you?

Pronunciation probably helped me the most because I was struggling with it.

3. How did you feel about the experience offered by ImmerseMe? Did the use of visuals, audio, interaction, and the depiction of the space impact you're learning in a positive or negative fashion? Please explain.

It was an accurate immersion that really showed what a nice dining experience in france would be like. This is important because I believe in practicing restaurant etiquette.

4. What were some of the multicultural learning experiences for you? Consider the authentic location. What did you learn, notice, negotiate, connect with, etc.?

You notice that people dress nicer to go out in france and the whole vibe of eating out is a lot different and more proper it seems.

5. How did the ImmerseMe category reflect your strengths and interests this week? What have you done well? What was your biggest challenge when completing this ImmerseMe category?

I was struggling with some pronunciation but I felt like I did good with the immersion overall.
