

1. In what ways have you improved as a student of French language and culture this semester? What brought about those changes? Include an artifact(s) that contains specific experiences, readings, assignments, or discussions in this course that supports your point.

I have improved in my vocabulary and confidence in speaking French. At first doing the talk-abroad was scary but now I am not as nervous. The Immerse Me helped me with fluency as well and helped me learn to spell better.

2. What did you learn about French language and culture by creating artifacts?

I learned a lot about music in France, which was awesome and I found some great songs. Also, I had time to reflect on my progress and see what I need more help with.

3. What was your biggest accomplishment in the course?

My biggest accomplishment was having conversations with people who don't speak English.

4. How did this artifact and other course elements help you reach it? Be specific.

Honestly the course material just helped me to reinforce studying and make sure I was practicing the content.

5. Reexamine your first artifact. Why study French? Has your answer changed, developed more fully, or remained the same? Explain.

I love the French culture and want to visit France. I want to make sure I'm pronouncing words correctly and being respectful when I talk to native French speakers. My French knowledge has improved greatly.
