

# **CYSE 695 – Linux for Cybersecurity**

## **Module 1 | Installation of Linux VM**

**Total: 100 Points**

Name: Alfred Acquaye

### **Task 1: Launch a Linux VM (100 Points)**

Follow the instructions outlined in the video link found in Module 1 to install Ubuntu on either Windows/MacBook with Intel or MacBook with M1/M2 chip.

Launch the VM after installing it and take a screenshot of the Terminal.
