

Workbook 2 Reflection

Overall, how did the conversation go? Explain.

I think the conversation went very well, some questions were kind of hard for me to understand, but she would repeat it if I needed her to. I was able to ask her a few questions as well. I think we were able to keep the conversation going about the topics that were assigned.

About what percentage of your partners speech did you understand?

I would say maybe around 75% I understood, there were times when my partner talked a lot, but I was able to pick up most of what was said.

What are three things you would phrase differently?

I would phrase how I said how I do homework on the weekend. I didn't say Los fines de semana correctly. I would have given more detail when I said my favorite activity was ironing clothes, I would've stated why, but I couldn't understand the question entirely. I also think I could've told her why I didn't like washing clothes.

List three things you've learned about your partner

1. She doesn't like to wash clothes or fold them
2. Her favorite social media platform is Instagram
3. She uses Facebook, Instagram, WhatsApp and TikTok

[10:57]

I said " Yo lavo las ropas los fines de semana porque tengo mas tiempo." My partners response was, " generalmente los fines de semana es cuando lavo la ropa es cuando barro trapeo limpio completamente la casa porque es cuando tengo mas tiempo muchas veces cocino fin de semana para no cocinar entre semana, entonces los fines de semana hago es mas comunes o los fines de semana hago actividades de quehaceres entre semana y te gustan las actividades de quehaceres.

What cultural comparisons or inferences can you make about your interaction with your partner?

My partner mentioned how where she's from Facebook is very popular there. I think Facebook is popular in America as well, but platforms like Tiktok, and twitter are used pretty popular as well. She uses social media to talk to family and friends as well. She mentioned how she does more chores on the weekends and cooks more on the weekends. I think that is true for families in America as well because a lot of people have work and school during the week and use Saturdays and Sundays for cleaning, and it is common for people here to have big Sunday dinners with lots of food.

Three new words

Completamente, trapeo, communes

I think to better prepare myself is to practice asking more questions for my partner. Like writing them down and answering my own questions that way I have both a question and answer ready.
