Education

Old Dominion University, Norfolk, VA

Candidate for Bachelor of Science in Cybersecurity

Expected December 2026

Major: Cybersecurity

Minor: Criminal Justice

GPA: 3.92

Professional Experience

United States Navy, Virginia Beach, VA

Electrician

July 2019 – June 2023

- Led a team of 13 individuals in the accomplishment of 3,164 equipment inspections and 142 repairs resulting in a fully mission capable naval vessel.
- Managed a naval vessel's recertification in maintenance and material management with a passing score of 91% meeting the requirements for deployment.
- Troubleshoot and repaired a ship's rudder control panel within 1 hour resulting in zero delays for a 12-hour joint training exercise with a Marine unit.
- Disassembled and restructured a 450-volt electrical cable head to fit European shore power standards allowing the naval vessel to dock for 10 days while conducting repairs.

United States Navy, Charleston, SC

Nuclear Electronics Technician

June 2017 – July 2019

- Monitored and operated a nuclear reactor power plant resulting in 80 hours of power distribution across a submarine.
- Diagnosed the problem for 5 circuit boards allowing for the circuit boards to be delivered to the appropriate repair facility.
- Calibrated and tested 3 reactor sensors ensuring data displayed on the reactor panel is accurate.
- Conducted 2 space radiation tests and a 2-day radiation leakage training in preparation for a nuclear power reactor shutdown.

Skills

- Intermediate in digital forensics tools (Autopsy, EnCase, Winhex, and FTK Imager)
- Basic Python Programming Language
- Proficient in Linux and Windows operating systems
