EDUCATION

Bachelors of Science
CYBERSECURITY

2020-2023
ODU University, Norfolk, VA

CERTIFICATION

Comptia Security Plus

PROGRAMMING LANGUAGES

Python, SQL script

ABOUT ME

A self-motivated recent cybersecurity graduate with a strong analytical mindset and meticulous attention to detail. Proficient in system security, network security, encryption, Python programming, risk management principles, and incident response. Great capability in research. Proactive learner dedicated to staying updated on the latest cybersecurity trends and technologies. Ready to contribute effectively to cybersecurity initiatives with hands-on experience in threat system protection, system detection and ethical hacking.

WORK EXPERIENCE

College

until-2023

Through the course of college studies participated in intensive coursework covering various cybersecurity domains-malware detection and prevention, threat intelligence awareness, OS and network security, Scanning and vulnerability assessment, ethical hacking, cloud computing, Password protection and hashing, risk management and incident response, Secure coding, cryptography and encryption, PKI, Identity and Access control systems.

SKILLS

System/Network Security
Linux and Window systems proficiency
Research
Python Programming
Identity and Access Control Systems
Ethical Hacking
Cryptography and encryption
Digital Forensics tools and techniques
Threat, Vulnerability and Risk
Cloud computing security

Analytical Thinking and Problem-Solving
Attention to Detail and Meticulousness
Continuous Learning and Development
Collaboration and Teamwork
Effective Communication Skills
Judgment and Decision Making
Adaptability and Versatility
Critical Thinking
Multidisciplinary Perspective
