

**Andriy Slynchuk has described eleven things Internet users do that may be illegal. Review what the author says and write a paragraph describing the five most serious violations and why you think those offenses are serious.**

3 – Using Copyrighted Images

4 – Sharing Passwords, Addresses, or Photos of Others

5 – Bullying and Trolling

7 – Faking Your Identity Online

9 – Collecting Information about Children

In my opinion, I believe that the most serious of the 11 offenses in the article are 4, 9, 5, and 7, not necessarily in that order. This is because these actions can actively cause harm to other people as well as the offender in some cases. For example, in number 7 if a child is pretending to be older than they actually are they can potentially do harm to themselves. The offense that I believe to be the fifth most serious is number 3, using copyrighted images. This can be harmful because it can take from someone's livelihood if they make money through the people paying to use their work, and using their work illegally is essentially stealing.
