Ethical and Social Issues in Information Systems Assignment

For this assignment you will write an ethics-related case analysis that demonstrates your ability to judge professional conduct and ethical behavior. You can choose any ethics case you want. Be detailed when you write your case analysis so that anyone reading it will know exactly what is going on and have a good grasp on the particular case in question.

Some helpful questions to keep in mind when writing your case analysis:

1. What happened?

2. Who was involved? What companies, governments, or people?

3. What were the consequences to the companies, governments, and people involved?

4. Did this unethical behavior change the way companies, governments, and people act or do business?

5. Were there any legal actions taken and by whom?

6. Were there any new laws created because of this unethical behavior?

7. What actions were taken if any to prevent this type of unethical behavior in the future?

8. What is the current state of the companies, governments, and people involved?

9. What do you think can be done to prevent this type of unethical behavior in the future?

10. What type of unethical behavior was this? (Personal, Business, Computer, Information)
