## WEBSITES, PORTFOLIOS, PROFILES

- <https://sites.wp.odu.edu/bryantcyse200>

July 2022 - June 2023

### **IT Inventory Lead Penske Logistics | Richmond, VA**

- Responsible for all inventory and some IT problem solving issues.
- Daily usage of WMS software and programs such as - Velocity, Blue Yonder, Microsoft Teams, Office, Excel, etc.
- Cycle counts, audits, and some SOS verification are done daily.
- SOS items are our most important products, as they are one-of-one custom items that require the utmost care and concern.
- I would routinely audit the entire building for these items to ensure inventory accuracy.
- Majority of responsibility was to resolve systematic issues.
- Whether it was solving receiving errors, LPN labeling issues, configuring/creating item footprints, reviewing systematic staging of inbound shipments, deciphering error messages received by operators, or analyzing and correcting pick rulings - systematic problem solving and analytical skills were imperative.

December 2021 - July 2022

### **AAFES Account Manager/Inventory Control Clerk Dori Foods |**

Richmond, VA

- Responsible for all inventory tasks (Damages, Returns, Counts, Audits).
- Daily use of Microsoft programs and WMS.
- Some minor systematic problem solving dealing with LPNs and receiving errors.
- Tracking damages and returns was a critical aspect as well as brainstorming ways to reduce both instances.
- Daily invoicing and managing of U.S Army and Air Force Exchange System.
- I was tasked with forecasting and maintaining adequate inventory for the U.S Army & Air Force.
- It was my duty to ensure demand was met and upheld sufficiently.
- Frequent communication with vendors, carriers, customers, etc.
- Daily printing, faxing, emailing, phone calls, etc.
- Intermittent data entry tasks.

April 2019 - September 2021

### **Receiving Associate/Clerk Vitamin Shoppe | Ashland, VA**

- Operate reach truck and order picker to execute putaway of inventory.
- Receive in some products as well as process inbound/BOL paperwork.
- Contact vendor in some instances over the phone and most of the time through email correspondence.
- Resolve some systematic receiving errors when required related to LPNs, quantities, item mismatch, etc.
- Forecast weekly inbound numbers and plan building allocation accordingly in collaboration with other departments.

---
