

Celeste Meraz-Luna

Staunton, VA · (540) 688-6239 · celeste03meraz@gmail.com · [LinkedIn](#)

OBJECTIVE:

I am seeking an opportunity in the field of cybersecurity where I can apply and improve my technical and problem-solving skills. I bring hands-on experience as a Clinical Application Technician at Augusta Health, a Cybersecurity Intern with Earth Viability Center Inc., and an IT Intern with the City of Staunton, where I developed strong abilities in system support, security awareness, and troubleshooting in a professional environment. In addition, my leadership experience as a Shift Lead Barista has strengthened my communication, customer service, adaptability, and attention to detail in fast-paced settings. I am a disciplined, responsible, and dedicated individual who values authenticity, stability, and continuous learning. I am motivated to contribute effectively while expanding my expertise in a technology-driven career path.
