EDUCATION

Old Dominion University, Norfolk, VA
Bachelor of Science: School of Cybersecurity   Expected Graduation May of 2025
Major: Cybersecurity
Current GPA: 3.46

Chesterfield Technical Center - Courthouse Campus; **Cyber Security Systems**   June 2020 – June 2021
- We were taught the basics of cybersecurity. We learned about hardware, types of attacks, network protocols, and various other topics. It served as my introduction to cybersecurity before my college courses.

Relevant Courses:
- Public Speaking – I learned about the basic elements of effective communication and strengthened our skills involving the preparation and presentation of speeches.
- Introduction to Network and Security – I explored the fundamental concepts, technologies, components, and issues related to communications and data networks, and basic network architecture given a specific need and set of hosts/clients.
- Linux Systems for Cybersecurity – I learned about different distributions of Linux and their uses which include basic installation and configuration, file systems management, shell scripts, and user authentication.
- Windows System Management – I learned about the tools and techniques used to configure, manage and implement Windows and its security-related features.
- Network/Server Config & Admin – I learned about the installation and configuration of Windows Server 2019. We work on installing, configuring storage and file systems, implementing virtualization, user management, directory services, security, and network configuration.

EXPERIENCE

ODU Student Recreation Center; Norfolk, VA; **Trip Leader**   Jan 1, 2024 – Present
- Plan scheduled outings to various outdoor experiences.
- Take a leadership role to ensure the safety of all the participants and make sure they are prepared for the trip.

ODU Student Recreation Center; Norfolk, VA; **Outdoor Adventure Center Attendant**   Jan 1, 2024 – Present
- Assist customers in renting camping gear and other outdoor equipment, registering for our various trips.

Organizations

- Cybersecurity Student Association, Officer   August 2021 – Present
  - Treasurer   Aug 2024 - Present

SKILLS

- **Tools & Software: Linux, Wireshark, Nmap**
- **Programming/Scripting: Python, PowerShell**
