

TalkAbroad Experience #1

in English

Reflection

During my conversation with my TalkAbroad partner I learned many things, such as Colombia is the 22nd ranking country in the World for healthcare. I also learned that Colombia is similar to the United States in the healthcare field. When I asked how the hospitals were in Colombia, my partner replied that it depended on the area you were in and if it was a private or public hospital. Also, much like the United States they have public and private health insurance, but you receive better care with private insurance, and it depends on which you get whether it will be a good insurance company or a bad insurance company. Lastly, we talked about how medical care was in Colombia, she said it was “Good in some cities...”

Speaking with my Colombian partner was eye opening and showed me that countries may not be as drastically different as they have been shown to be in the media. It was an experience that I am grateful I was able to do. I have shared my experience with many people and they have expressed their interest in TalkAbroad. I look forward to using TalkAbroad in the near future again!

TalkAbroad Experience #1

in Spanish

Durante mi conversación con mi pareja en Colombia de TalkAbroad yo aprendí muchas cosas. Yo aprendí que Colombia y Estados Unidos son muy similar. Están similares en el campo de la salud. Por ejemplo, los dos tienen la compañía de seguros privada y público. Nosotros hablamos sobre la sistema de salud, la compañía de seguros, los hospitales, y calidad de la asistencia sanitaria. Como Estados Unidos tiene hospitales buenos y hospitales mal, dependiendo del lugar. En las ciudades, son hospitales buenos, pero en zonas rurales los hospitales están mal. Nosotros también hablamos sobre los diferentes de la compañía de seguros privada y público.

Yo tuve una experiencia buena y yo recomendé TalkAbroad a muchas personas. Me gustaría usar TalkAbroad en el futuro. Me gusto mi experiencia con mi pareja y no puedo esperar para hablar de nuevo.
