Goal

The goal of this class is to help refugees learn the questions and answers to the citizenship test so they can pass and become citizens.

COMMUNICATION

FEEDBACK

Ask the women what the words are in Arabic so they can associate the English words with Arabic words. This way they will have a better chance of remembering words for the citizenship test.

MY FINAL THOUGHTS

Tutoring the siblings was my favorite part of all my experiences. I learned just as much from them as they learned from me.

I got to learn so much about Africans Americans throughout my schooling, but I barely learned about the Africans. My textbooks made Africans seem like they still walked around with almost nothing on.

I was able to learn so much about the rich and beautiful cultures in Africa. *

Overall, I learned so much from all of my experiences and got to utalize many things I learned in this class.
