Week 5 - Journal Entry 5

- 1 Revenge
- 2 For money
- 3 Entertainment
- 4 Recognition
- 5 boredom
- 6 Multiple reasons
- 7 Political

I rank revenge as number one because that makes more sense as to why people have certain motives to commit crimes. Next for number two, I put money because most people are desperate for money. Number three I did entertainment because some people find entertainment in crimes to boost their adrenaline. I did number four because they want recognition for the crimes they do. Boredom I put 5 because you can be bored and want to commit certain crimes which can go hand in hand with entertainment. Multiple reasons I put six because there can be a lot of reasons but it wouldn't make much sense if, for the last one, I put political because I feel like not a lot of people commit crimes because of political standing.
