Chandler West

# Example Internship Workday

# Training

What are some examples of what we are learning?

1

## PagerDuty

Monitoring phishing attempts and learning what steps to take to disable the threats they present.

2

## CrowdStrike

Security management program used to respond to incidents, hunt for threats, respond in real time to threats, and query language events.

3

## Microsoft Defender

Analyze risky users, block emails and URLs, investigate suspicious emails/users.

4

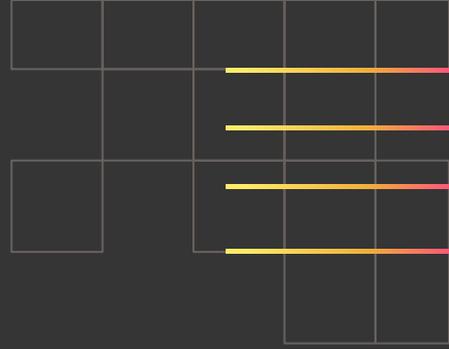

## QRadar

User management, logs and events, access management, threat detection, and SIEM.

# Challenges

Access issues

Workload

# IMPORTANT TAKEAWAYS

---

1:

Document everything

2:

Be quick to react, but  
exercise caution in  
every situation

3:

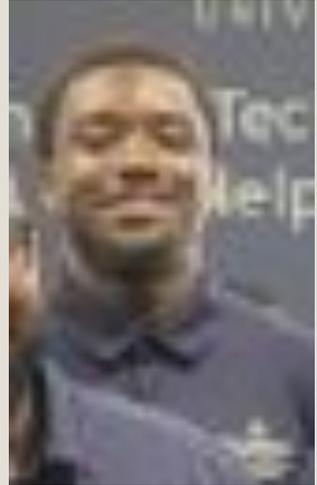

Do not be afraid to ask  
for help

Vincent is the GOAT

Christian is also the  
GOAT

## Feelings towards internship

Very grateful

Knowledgeable team

Amazing opportunity

Confidence boosted

Great technical experience

Excited for future

Thank you
