Module 1: Multiple choice questions

1. Cybersecurity issues are connected to:
   a) Culture
   b) Politics
   c) Law
   d) All of the above

2. Disciplines are characterized by:
   a) Object of research
   b) Specific terminology
   c) Research methods
   d) All of the above

3. Multidisciplinarity, transdisciplinarity and interdisciplinarity are:
   a) Synonyms
   b) Are different phenomena sharing no similarities
   c) Independent phenomena that share some similarities
   d) None of the above

4. Which of the following are true for disciplines:
   a) They are foundational to inderdisciplinarity
   b) Separate disciplines are not posing any barriers to interdisciplinarity
   c) Disciplines are adequate enough to address complexity comprehensively
   d) Complex reality does not require interdisciplinarity as separate disciplines are sufficient

5. Which of the following is among the characteristics of interdisciplinarity:
   a) Flexibility
   b) Innovative thinking
   c) All of the above
   d) None of the above

6. Which of the following are characteristics of interdisciplinarity:
   e) Strict boundaries between disciplines
   f) Lack of terminology
   g) All of the above
   h) None of the above

7. All of the following are among the learning outcomes based on interdisciplinarity for students except for:
   a) Integration
   b) Critical awareness
   c) Establishing clear boundaries between disciplines
   d) Communication

8. Cybersecurity is a topic that can find application in many fields as well as in:
   a) Victimology
   b) Leadership
   c) All of the above
   d) None of the above

9. The field of sociology studies all of the following except for:
   a) Social life

b) Social change
c) Social causes and consequence of human behavior
d) ==All of the above are topics of interest for sociology==

10. Which field focuses on the systematic analysis of the basic concepts, logic and evidentiary structures of other disciplines:
    a) Psychology
    b) Library science
    c) Information assurance
    d) Philosophy

11. All of the following psychological factors are related to hacking except for:
    a) ==Interconnectedness==
    b) Reciprocation
    c) Authority
    d) Scarcity

12. The field of victimology studies all of these except for:
    a) The study of the victim and their role in victimization
    b) The study of the victim and the consequences of victimization
    c) The study of the victim and society's response
