## Professional Summary

Cybersecurity professional and former U.S. Navy Information Systems Technician with 9 years of progressive IT experience in high-security environments. Specialized in cybersecurity operations, network infrastructure, vulnerability management, and mobile communications. Demonstrated leadership in global communications, incident response, and system hardening. Adept at translating mission-critical objectives into secure, scalable technology solutions. Recognized with multiple military commendations for technical excellence, initiative, and team leadership.

## Core Competencies

- Cybersecurity Operations & Threat Mitigation
- Information Assurance & Risk Management
- Network Administration
- Mobile Communications
- Secure Communications (Classified/Unclassified Networks)
- Identity & Access Management
- IT Service Management (Help Desk, Incident Response)
- System Hardening & Patch Management
- Leadership, Training, & Cross-Functional Team Coordination

## Professional Experience

### Information Systems Technician

U.S. Navy – Various Global Locations (Home Station: San Diego, CA) | Jun 2014 – Jul 2023

- Managed and secured classified and unclassified DoD networks supporting global Navy missions.
- Maintained the cybersecurity posture of enterprise networks by conducting vulnerability scans, log analysis, and patching.
- Administered Active Directory, group policy objects (GPOs), and implemented identity and access control measures.
- Supported the planning and implementation of IT transformation projects to modernize legacy systems.
- Operated and maintained tactical and shore-based communication systems including routers, switches, and encryption devices.

- Spearheaded the development of incident response protocols and supported live incident investigations.
- Collaborated with cybersecurity teams to enforce security controls aligned with DoD standards.
- Supervised and trained junior personnel in network configuration, cybersecurity best practices, and Help Desk support.
- Assisted in strong customer service support and call centers.
- Ensured compliance with cybersecurity audits and assisted in preparing documentation for accreditation and ATOs.
- Played a key role in developing SOPs for secure IT system operations and maintenance.

## **Education**

Old Dominion University – Norfolk, VA

- Bachelor of Science in Cybersecurity (In Progress)
- Sep 2023 – Present | Anticipated graduation: Dec 2025 | GPA: 3.7

US Navy Information Warfare Training Command – San Diego, CA

- Network Security, Cyber Defense Training
- Mar 2020 – Jun 2020

US Navy – Technical Training School – Pensacola, FL

- Information Systems Technician A-School
- CompTIA A+
- Aug 2014 – Jan 2015

## **Certifications**

- CompTIA A+ (Sep 2014 – Sep 2020)
- CompTIA Sec+ (In Progress)
- TS/SCI (March 2016 - July 2025)

## **Awards**

- Navy and Marine Corps Achievement Medal – For exemplary technical performance in security operations.
- Navy and Marine Corps Commendation Medal – Recognized for leadership and mission-critical system contributions.
- Navy and Marine Corps Commendation Medal – Led the revival of team specific maintenance systems.
