

CYSE 270: Linux System for Cybersecurity  
Assignment: Lab 1 - Create a Virtual Machine

Task A Create a Linux VM and Task B: Command Practice

A screenshot of a terminal window titled "dom-davis@kali: ~". The window has a menu bar with "File", "Actions", "Edit", "View", and "Help". The terminal shows the following sequence of commands and outputs:

```
(dom-davis@kali)-[~]
└─$ echo Dominic Davis
Dominic Davis

(dom-davis@kali)-[~]
└─$ date
Thu Aug 28 04:15:14 PM EDT 2025

(dom-davis@kali)-[~]
└─$ ls
Desktop  Documents  Downloads  Music  Pictures  Public  Templates  Videos

(dom-davis@kali)-[~]
└─$ pwd
/home/dom-davis

(dom-davis@kali)-[~]
└─$
```

Echo is used for displaying lines of text on the command line

Date is used to display the system's date and time

Pwd is used to display the current working directory or location of the machine

Ls is used to list files and the contents of directories
