

DEEP PATEL

PROFESSIONAL SUMMARY

A dedicated and detail-oriented cybersecurity professional with hands-on experience in system security, digital forensics, and networking. The strong ability to troubleshoot technical issues and manage secure networked systems. Eager to leverage my education and skills to contribute to a cybersecurity team focused on protecting data and improving system security.

EMPLOYMENT HISTORY

MANUFACTURING SUPPORT SERVICES TECH

Jun 2023 - Present

Valmont Industries

Remote, VA

- ♦ Reviewed and validated part numbers in the IFS system, ensuring adherence to manufacturing specifications.
- ♦ Developed and executed standard operating procedures in collaboration with cross-functional teams.
- ♦ Conducted root cause investigations, improving system uptime and efficiency.
- ♦ Conducted thorough examinations of part assemblies and component parts to verify compliance with site manufacturing limitations.

MANUFACTURING ASSOCIATE

Aug 2020 - Aug 2021

Merck

Elkton, VA

- ♦ Monitored manufacturing equipment using both computerized and manual systems, ensuring compliance with safety protocols.
- ♦ Performed initial troubleshooting on systems, contributing to reduced downtime.
- ♦ Authored and executed protocols to maintain compliance with Good Manufacturing Practices (GMP).

GUEST SERVICES SUPERVISOR

Oct 2019 - Aug 2020

Hampton Inn South

Harrisonburg, VA

- ♦ Answered guest inquiries promptly and professionally, ensuring high satisfaction levels.
- ♦ Managed reservations and check-in/check-out processes, adhering to brand standards.
- ♦ Created and maintained front desk staff schedules for optimal coverage.
- ♦ Trained new hires and current associates regularly, enhancing team performance.
- ♦ Mastered and executed all phases of the front desk computer system efficiently.

EDUCATION

CYBERSECURITY (B.S)

Dec 2022

Old Dominion University

Norfolk, VA

- ♦ Cybersecurity Programming and Networking
- ♦ Cyber Law
- ♦ Digital Forensics
- ♦ Networked Systems Security
- ♦ Windows System Management and Security.
- ♦ Linux for Cybersecurity

ASSOCIATE OF ARTS AND SCIENCE

Dec 2018

Blue Ridge Community College

Weyers Cave, VA

SKILLS/ACCOMPLISHMENTS

TECHNICAL SKILLS

- ♦ **Networking & Security:** Networked Systems Security, Windows Server Management, Digital Forensics, Firewalls, IDS/IPS
- ♦ **Security Tools:** Wireshark, Metasploit, Nmap
- ♦ **Programming:** Python, Linux
- ♦ **Compliance:** Familiarity with NIST, GDPR, and ISO 27001 standards.
- ♦ **Problem-Solving:** Proficient in diagnosing and resolving technical issues.

CYBERSECURITY PROJECTS & COMPETITIONS

♦ **CyberForge 2022 Capture the Flag (MetaCTF Challenges)**

- ◊ Competed in a range of cybersecurity challenges involving penetration testing, cryptography, and digital forensics.
Strengthened my knowledge in vulnerability assessment and ethical hacking.

♦ **Digital Forensics Project**

- ◊ Investigated a simulated cyberattack, analyzing logs and digital evidence to identify the source and method of the attack.
Provided a comprehensive report with recommendations for future prevention.
