

Week 6 Journals**1. Describe five businesses or non-profits that have been created in my field.**

1. Cisco, which is an innovation company for networking, cloud based systems, and security solutions.
2. Webroot, which is a private company that specializes in cyber protection such as anti-virus software.
3. Comptia is an association that offers professional certifications in the field of cybersecurity and IT.
4. NortonLifeLock is a cybersecurity company that offers security and protection services and software.
5. Nord Security that creates cybersecurity software, and is better known for their VPN services NordVPN.

2. What is your overall perspective on the entrepreneurship experience?

The entrepreneurship experience showed me how difficult it can be to create a product and all the time and planning that has to go into it for it to be unique and successful.

3. How did the entrepreneurship prepare or not prepare you to be a competitive candidate for vacant positions?

The entrepreneurship experience is prepared in the sense that all companies need a variety of people with many different skills and ideas. Anyone can be a great addition to a team through creativity and the different perspectives they bring.

4. What suggestions do you have to improve the experience?

I do believe if we had an earlier start to knowing who our groups are, we may have been able to go a little more in depth into how well the product was developed.

5. What's next for you?

For me, I plan to graduate in the Fall of 2022 while also studying for the Comptia A+ and Security+ certifications.
