ANITA BEKONO

 (571)842-2238 | anita.bekono@icloud.com

I'm a Cybersecurity analyst who's really into details. I'm working on my bachelor's degree in Cybersecurity and expect to finish in December 2024. I've got hands-on experience in keeping networks safe and testing for weaknesses. I know how to find problems and set up strong security to keep info safe. I recently made the Dean's List for academic excellence in the school of Cybersecurity. I love improving security rules and I'm always learning more as cybersecurity changes.
