

Module Three Discussion Board 2 (M3 DB2): Example Culturally-Relevant Texts

- ***Tell us a bit about at least one text you encountered. Share an image or a link as well, if you can. Your post should be between 150 and 200 words, and it should help your classmates understand the following about your example text.***
 - ***What is it?***
 - ***Where/how did you encounter it?***
 - ***Where was it published/posted/played/shared?***
 - ***Why did you choose to share it here?***
 - ***What does it seem to say or represent about American culture?***

My response: A text I see or come across more frequently about American Culture is music. Music is an easier way for people to listen and understand American Culture. I encounter this music almost anywhere. I encountered this music one day just by listening to random songs and some of the songs stuck with me. The app I use to listen to my music is apple music so that is how I found the songs. Apple music sometimes shuffles your songs randomly and anything will come up. I chose to share this because everyone can relate to music and good music can touch the souls of others. The song describes how we do certain things like how we eat certain food, what we do for entertainment, what we do in school, and how we spend time with our families. The songs showcase the good and the bad of American Culture we live in.
