## PROFILE

I am a senior year student at Old Dominion University majoring in Cybersecurity and minoring in Cybercrime. I have experience working with both Windows and Linux operating systems and I am looking to gain experience in a cybersecurity role.

## EMPLOYMENT HISTORY

### Front of House Worker at Cookout, Virginia Beach

July 2019 — Present

Have maintained a job as a front-of-house worker at Cookout for five years, where I have learned and followed all company policies. I have learned to work as a team with my coworkers and have developed excellent customer service skills. I've instructed new hires on proper procedures and processes to increase overall customer satisfaction. I am the longest-tenured employee at our location, showing my dedication to the company.

## EDUCATION

### Governor's STEM Academy, Landstown High School, Virginia Beach

September 2017 — June 2021

Graduated high school with an advanced diploma in the governor's STEM program at Landstown High School. Maintained a high GPA as well as club participation throughout all four years.

- 4-year member of the TSA (Technology Student Association)
- Placed third in the state of Virginia in the TSA Cybersecurity Technosphere competition in 2021
- Participated as a team member in the Cybersecurity STEM Trifecta Challenge
- Earned certifications in Modeling and Simulation, AutoCAD and National Workplace Readiness

### Cybersecurity, Old Dominion University, Norfolk

August 2021 — Present (Graduating December 2024)

Currently attending Old Dominion University to obtain a bachelor's degree in Cybersecurity and a minor in Cybercrime. I have learned a litany of cybersecurity skills throughout my education and am looking forward to applying them in a practical environment.

#### Relevant Courses:

- Windows Systems Management and Security
- Linux System for Cybersecurity
- Cybersecurity Strategy and Policy
- Ethical Hacking and Penetration Testing

GPA: 3.91
