<p>Empathy</p>	<ul style="list-style-type: none"> - On the date 12/5/25 a fellow playmaker (Server) came to work with a broken wrist. She was able to carry trays with a brace like normal but wasn't able to move the tables for her event setup. I felt the need to help her move the required heavy tables - Everyone has something going on in their personal life. When this event occurs I always try to pick up their slack when they aren't able to - When hard times occur in my personal life with the ones I am involved with, I always try my best to comfort them and provide them with anything they need. 	<p>Having empathy is very important when taking the role as a leader. You don't look at your team as just a team, you look at them as humans with real human problems. It's important that a job isn't the only thing going on in their life. As a leader you must be there for your teammates whenever something outside of work affects them. Personally I have been through a lot of hard times and I have spoken to leaders. My reflected Best Self Portrait:

I am a team player who never fails to go above and beyond my responsibilities to make sure the whole team succeeds. Every task requires patience and dedication towards completion and is essential to set up the next shift for success. I don't like leaving tasks unfinished and ensuring that everything part of closing work has been completed before I leave for the day/night.

In team settings, I have a natural affinity for leadership because I hold myself to high standards. The final outcome of a project or shift affects everyone and I want that to be because of me . Achieving success is a team goal in most cases and I believe I have the qualities to give any group I am the leader of the best chance at peak performance

I take great care of my teammates in any situation. I understand that work needs to be done but I also understand that people have personal lives that can affect them in multiple different ways. Its my job as a leader to make sure objectives get met, but it is also my responsibility to be supportive or any and all teammates when they need empathy and compassion

Feedback:

I didn't have time to submit to the class so I submitted the chart to my fellow Playmakers at TopGolf. In a professional setting most of them said that I didn't give myself enough credit for the hard work and time that I put into my current employment. One of my managers said that if I ever wanted to become a manager the vote for me to become one would be unanimous which was very nice to hear. They appreciate that I always come into work 15 minutes early for every event even though it's not a requirement.

Mission Statement:

“Thoughts turn into words, words turn into actions, and actions tell a lot about who you are”
This is a quote my father instilled in me from a youth. They are words that have stuck with me since the first time. The quote is a great quote for any leader striving to be more than just a leader but a mensch. As I continue my journey in life this mentality is what will lead me to become my best self.
