

ImmerseMe

e-P Reflections S2026

Revised January 2026

Name: Kevon Merritte

Date: 04/09/2026

CMU Lesson: L-7

ImmerseMe Unit(s)/Lesson(s):Talking about body parts, I can name activities and their times in my daily schedule, identifying body parts

Instructions to [record your ImmerseMe experience in Zoom](#).

Answer prompts 1-7 below in English to help you process your French learning progress using the virtual and AI experience of ImmerseMe.

1. Why did you select this particular **ImmerseMe lesson**? Why did this lesson in particular appeal to you?

I felt this particular lesson appealed to me because having an understanding of my body parts incase an issue were to arise whether to myself or someone else, I'm able to say this in more than one language

Which scaffolded learning mode from ImmerseMe was most helpful to you this week (**pronunciation, typing, spelling, translation, AI**)? What specific aspects of the lesson made it helpful to you?

I felt the trying was most helpful for me this week being that someone of the words are spelled the same in english so seeing how they are spelled helped me out alot.

2. How did you feel about the experience offered by ImmerseMe? Did the use of visuals, audio, interaction, and the depiction of the space impact your learning positively or negatively? Please explain.

I think the experience was good as one was set in somewhat of a classroom setting with a teacher going over body parts and another was at a table with a gentleman discussing activities and time of my daily schedule

-
3. What were some of the multicultural learning experiences for you? Consider the authentic location. What did you learn, notice, negotiate, connect with, etc.?
 4. How did the ImmerseMe category reflect your strengths and interests this week? What have you done well? What was your biggest challenge when completing this ImmerseMe category?

I tend to struggle with spelling especially when they're spelled differently within each language.

5. How do you see this week's immersive experience as part of your future career goals? Can you imagine using French in a future job or travel experience? Please explain.

Career wise, I don't necessarily see anything, but for travel experience, I would say having the knowledge of body parts in case an injury emergency were to arise with me or anyone else, I'm able to have a conversation and potentially find where the injury lies.

Excellent!

6. After using ImmerseMe's **AI Conversation (BETA)** for this lesson, what were your impressions? Was this practice for speaking or writing? **Add a screenshot of your AI conversation here.**
