My Reflective Process (answer prompts 1-5 below in English to help you process your French learning this week):

1. Why did I select this artifact? What is the significance for me?

I chose this artifact because I never knew Clementine's were from France and I eat them all the time!

2. What did I learn from this artifact?

I learned that the Clémentine de Corse is grown only in France, and the fruit gets their bright orange color from the cooler temperatures.

3. How does the artifact reflect my strengths and interests? What have I done well? Name 1-3 items related to this artifact that you are proud of this week.

This artifact reflects my interest in learning about different cultures, as well as my interest in food.

4. What was my biggest challenge when completing this artifact? Would I have done anything differently?

I think my biggest challenge was not eating a Clémentine de Corse while I typed this up.

5. What can I improve on moving forward in my French learning process?

Next week I'm going to start completing the CMU program for Leçon 1.
