ImmerseMe

e-P Reflections S2023

Name: Shane Green

Week of: 3.24

ImmerseMe Topic & Category: Body Parts - Identifying Body Parts

e-Portfolio Artifacts are digital evidence of progress, experiences, achievements, and goals over time. Artifacts are examples of your work.
Be sure to **record your ImmerseMe experience in Zoom**.

Answer prompts 1-5 below in English to help you process your French learning progress using the virtual experience of ImmerseMe:

1. Why did you select this particular **ImmerseMe category**? Why did this lesson in particular appeal to you?

   I thought that it would be a good vocabulary building activity, and an interesting way to revisit some of the basic nouns regarding one's physical being.

2. Which scaffolded learning mode from ImmerseMe was most helpful to you this week **(pronunciation, writing/dictation, translation, immersion).** What specific aspects of the lesson made it helpful to you?

   I found translation the most helpful because it was directly based on my knowing the vocabulary for each body part.

3. How did you feel about the experience offered by ImmerseMe? Did the use of visuals, audio, interaction, and the depiction of the space impact your learning in a positive or negative fashion? Please explain.

   I enjoyed the experience. Talking to the girl across from me felt very real and comfortable. I think it helped to be talking to a "real" person as if we were studying together, which in a way we were.

4. What were some of the multicultural learning experiences for you? Consider the authentic location. What did you learn, notice, negotiate, connect with, etc.?

    We were working in a sort of nondescript location, I took it to be an apartment… I thought it was an otherwise pretty standard study session despite the obvious language differences.

5. How did the ImmerseMe category reflect your strengths and interests this week? What have you done well? What was your biggest challenge when completing this ImmerseMe category ?

    I think I certainly learned the words I didn't already know quickly, though certainly I had a little trouble with pronunciation, which is something of a given with me. Another challenge was remembering the order of the words as we discussed them.
