Answer prompts 1-5 below in English to help you process your French learning progress using the virtual experience of ImmerseMe:

1. Why did you select this particular [ImmerseMe category](#)? Why did this lesson in particular appeal to you?

Being able to talk about one's schedule/the way one spends the hours of a given day can be an insight into not just the external operations but the personality and social expectations we may have in common across cultural lines

2. Which scaffolded learning mode from ImmerseMe was most helpful to you this week (**pronunciation, writing/dictation, translation, immersion**). What specific aspects of the lesson made it helpful to you?

Writing particularly helped. Demonstrated where accent marks went, what specifically was said, etc.

3. How did you feel about the experience offered by ImmerseMe? Did the use of visuals, audio, interaction, and the depiction of the space impact your learning in a positive or negative fashion? Please explain.

I enjoyed the experience, though I get somewhat annoyed when the program doesn't quite register my correct answers; however I got through all but one of the lessons (translation) completely.

4. What were some of the multicultural learning experiences for you? Consider the authentic location. What did you learn, notice, negotiate, connect with, etc.?

The French use a military time sensibility when referring to the P.M. hours; using the article for “the school” and “the house” as Americans rarely or never would.

5. How did the ImmerseMe category reflect your strengths and interests this week? What have you done well? What was your biggest challenge when completing this ImmerseMe category ?

I think describing my schedule “en francais” is one of my strengths and in terms of challenges my continuing problems with some of the auditory lessons continues.
