

I have done many reading assignments during this semester in the homework. Like matching up a vocabulary word that we just learned into the appropriate sentence.

The reading assignments were pretty easy when trying to figure out the appropriate vocabulary word. This is because I can understand Spanish a lot better when it is written out and I can read and pick apart certain words to figure out the sentence. A weakness that I do have when reading is that I try to read Spanish exactly like it is English. As in I try to translate it exactly in English format. Sometimes the sentences throw me off because I try to just translate it in English instead of just reading it and understanding it as is written in Spanish.

The screenshot shows a web browser window with multiple tabs open. The active tab is titled 'Emparejar' and shows a Spanish language activity on the website 'm3a.vhlcentral.com'. The activity consists of six numbered questions, each with a score of '2 out of 2 points' and a green checkmark indicating a correct answer. The questions and answers are as follows:

- Question 3: Hasta mañana, señora Ramírez. Saludos al señor Ramírez. / Hasta pronto.
