

3 Study 1

Computation information

Computation time	16 s
CPU	Intel(R) Xeon(R) CPU E5-2690 v4 @ 2.60GHz, 12 cores
Operating system	Windows Server 2012

3.1 Stationary

Study settings

Description	Value
Include geometric nonlinearity	Off

Physics and variables selection

Physics interface	Discretization
Heat Transfer in Solids (ht)	physics

Mesh selection

Geometry	Mesh
Geometry 1 (geom1)	mesh1

3.2 Solver Configurations

3.2.1 Solution 1

Compile Equations: Stationary (st1)

Study and step

Description	Value
Use study	Study 1
Use study step	Stationary

Dependent Variables 1 (v1)

General

Description	Value
Defined by study step	Stationary

Initial values of variables solved for

Description	Value
Solution	Zero
