

JOSHUA BODIE

Virginia Beach, VA 23462

(347) 447-0845 | j-bodie@live.com

Veteran's Preference Status: Medically Retired

Clearance: Secret

Citizenship: United States

INTERN (INFORMATION TECHNOLOGY - PROJECT MANAGEMENT)

Motivated cybersecurity and technology professional with an active Secret Security Clearance and 5+ years of experience in technical operations, problem solving, and team leadership. Currently pursuing a B.S. in Cybersecurity (GPA 3.71) at Old Dominion University, with hands-on experience in AI fundamentals, SQL, and software programming. Skilled at building secure and efficient systems, troubleshooting complex issues, and collaborating across teams to drive optimization and innovation. Passionate about applying data-driven and AI-integrated solutions within an agile project management environment.

TECHNICAL COMPETENCY

- Network Security
- Cyber Threat Intelligence
- Critical Thinking
- Cloud Platforms / Cloud Services
- AI/ Artificial Intelligence
- Ethical Decision Making
- Law Enforcement Compliance
- Troubleshooting and Debugging
- Technical Problem Solving

Software: Microsoft Office (Word, Excel, PowerPoint, Outlook)

Operating Systems: Microsoft Windows, MacOS

Programming & Web: SQL, JavaScript, HTML, CSS

Tools: Familiarity with vulnerability scanners and security assessment tools

PROFESSIONAL EXPERIENCE

United States Navy | Various Locations 2020 – 2024 Security Manager 2020 - 2025

- Coordinated cross-functional operations for high-security defense facilities, ensuring data protection, personnel safety, and compliance with Department of Defense protocols.
- Led over **300+ high-stakes missions**, demonstrating advanced problem-solving, risk mitigation, and real-time decision-making under pressure.
- Performed security audits and implemented process improvements using data-driven approaches—enhancing efficiency and reducing vulnerabilities.
- Created detailed operational reports and documentation, aligning with agile and project management principles for transparency and continuous improvement.
- Mentored and trained junior personnel, fostering teamwork and accountability in a results-driven environment.

- Mentored peers and junior personnel, fostering a collaborative and professional environment.

United States Navy | Electrical Specialist 2016 – 2019

- Diagnosed and resolved complex electrical system issues, ensuring reliable operations across high-capacity naval vessels.
- Executed troubleshooting protocols, technical analysis, and maintenance of system software components—building a foundation for coding and debugging practices.
- Supported technical documentation and collaborated with multi-disciplinary teams to implement system upgrades and performance enhancements.
- Conducted structured training sessions on safety compliance and systems optimization, improving overall team productivity.

EDUCATION

Bachelor of Science (B.S.) Cybersecurity (in progress) | Current GPA 3.67 | Old Dominion University | Expected Graduation: December 2026

Relevant Coursework:

- **Network Security:** Explored protocols, firewalls, and intrusion detection systems on the computer.
- **Information Assurance:** Studied policies and practices to protect information assets. Information Security Standards
- **Cyber Threat Intelligence:** Analyzed threats and vulnerabilities within various networks.
- **Software Programming:** Applied programming fundamentals using **SQL, JavaScript, HTML, and CSS** to build secure, efficient web-based applications.

Associate of Science (A.S.) Marine Engineering | University of Trinidad and Tobago

AWARDS & HONORS

- Scholarship Awardee
- Honor Society Tau Sigma
