- Lead the process to secure an IATT and ATO for the Army Training Information System.
- Conduct RMF Continuous Monitoring for Web, Database, and Application Services/Servers.
- Conduct Quarterly STIG Develop and maintain security SOPs, POAMs, and develop recommendations for deviations from security initiatives.
- Conduct security auditing and cybersecurity incident response.
- Maintain the trusted facility manual and security features users guide.
- Maintain all documentation to meet DoD, DA and NSA security requirements.
- Conduct technical evaluations of AISs to ensure accreditation standards are being met.
- Maintain and implement ATIS Security Control Assessment (SCA) requirements.
- Evaluate proposed security solutions for ATIS. Prepare security documentation including System Identification Profile (SIP), DoD Implementation Plan (DIP), and AIS security plan.
- Coordinate quarterly self-assessment of the existing security architecture.
- Conduct initial Risk Assessment surveys in support of the certification and accreditation cycle.
- Provide direct support to the Government ISSM in accordance with AR 25-2, paragraph 3-2. e.
- Will assist the ISSM with continuous monitoring requirements for all PdM ATIS systems.
- Will assist the ISSM in managing the systems in eMASS that fall under PdM ATIS.

**Valdez | Vulnerability Mgt.
Jun.2022**

Jan. 2021 –

01/2021 -06/2022, U.S. Airforce (Langley AFB)

Provides Vulnerability Assessment(scanning) in an enterprise (>3000 users) environment by conducting vulnerability scans using DISA Vulnerability Management System (VMS) tools and as well as responsible for reviewing vulnerability status reports and coordinating with multiple POCs to ensure that due diligence is being conducted for all networked assets.

- Experienced in Installation/Configuration.
- Experienced in conducting troubleshooting of ACAS scans.
- Experienced in reviewing Nessus and ACAS scan report
- Experienced in generating ACAS reports.
- Experienced in conducting Network asset discovery (NAD).
- Experienced in creating target group scans.
- Experienced in Building custom scans.
- Experienced in assessing, summarizing, and providing technical guidance for security directives and patches in support of the Information Assurance Vulnerability Management (IAVM) Program.
- Working knowledge of the Vulnerability Management System (VMS), working technical knowledge of REM.
- Trend/root cause analyst from a vulnerability management perspective, Proficient with Microsoft Access.

**U.S. Navy | ISSO
2021**

Feb. 2020 – May.

02/2020 – 05/2021, NMRTC Portsmouth, VA, Active Duty

- Assisted the command's ISSM and ISSE in developing system accreditation packages for the command's DHA ATO.
- Reviewed and documented changes in system security plans and plans of action and milestones (POA&Ms).
- Reviewed and analyzed system hardware and software list for security assessment plan efforts.
- Performed validation efforts while ensuring accreditation packages included all required artifacts, e.g., STIGs.
- Tracked RMF authorization packages from initial process to submission and authorization to operate (ATO) approval.
- Assisted in scoping and tailoring system security controls in compliance with applicable DoD security requirements.
- Monitored systems security controls in compliance with the system security plan and ATO-approved system life cycle
- Interfaced with the command's upper management for security-related issues and risk mitigation plans for site-packages.

**U.S Navy | Asst. Command Deployability Coordinator
Feb.2020
01/2021 -06/2022, NMCP Portsmouth, VA, Active Duty**

Feb. 2018 –

Facilitated the adaptation of Limited duty (LIMDU) service members and ensured LIMDU Sailors were assignable, distributable, and deployable. Ensured that Limited duty (LIMDU) sailors were integrated into the command and were fully cognizant of all policies, programs, services, and responsibilities while on LIMDU orders.

- Aided in the development of the command deployability coordinating program. Tracking LIMDU personnel on orders to the Military Treatment Facility (MTF)
- Ensured LIMDU personnel counseled on LIMDU status.
- Ensured LIMDU personnel complied with their medical treatments.
- I served as a liaison between medical providers, medical boards, and the Navy Personnel department (PERS) of Sailor's LIMDU status.
- I organized monthly mandatory town hall meetings and training for LIMDU Sailors with various stakeholders.
- Ensured Sailors were properly tracked and processed out after medical findings of either fit for duty or unfit for duty.
- Familiar with SMART system for tracking and updating all assigned patients.

**U.S Navy | Hospital Corpsman.
Feb.2018
01/2016 -02/2018, NAS Jacksonville, FL, Active Duty**

Jan. 2016 –

Assisted health care professionals in providing minor medical procedures and surgical teachings to over 2,500 Navy, Marine, Air force, and Army personnel in support of military readiness. Functioned as clinical or specialty technician, administrative personnel, and health care provider at treatment facilities.

- Planned, analyzed, prioritized, trained, and implemented process improvements and efficiencies to achieve exceptional command and organizational climate by 97%
- Estimated and prepared medical budgets and cost breakouts for senior leadership.
- Certified in CPR, combat readiness (Casualty Receiving Readiness), HIPAA, Phlebotomy, and CHCS
- Achieved and maintained 100% Joint Commission compliance as the department enlisted safety representative by implementing strict Standard Operating procedures regarding the protection, handling, and disposal of hazardous waste
- Evaluated and developed best practices for Surveillance and Screenings for active duty and reserve personnel.

U.S. Navy Recruit training | Great Lakes, IL

Jun. 2015 – Jan. 2016

**EMTEC Inc. | System Support Specialist
01/2014 -06/2015, Suwannee, Atlanta, GA**

Jan. 2014 – Jun.2015

- I assisted in planning, implementing, and tracking all projects while helping the project team.
- Maintained accountability for all system resources, including hardware and software inventory lists.
- Ensured all trouble tickets were resolved promptly.
- Performed lightweight system administration duties in support of end-user access authorization requests.
- Assisted in network security monitoring, system performance, and client support services
- Maintained system configuration documentation and system licenses.
- Assisted in ensuring that IT business continuity, disaster recovery plans, and contingency plans were implemented.

**EMTEC Inc. | System Support Specialist
01/2012 -01/2014, Suwannee, Atlanta, GA**

Jan. 2012 – Jan.2014

World Financial Group is a multi-level marketing company based in Johns Creek, Georgia, a suburb of Atlanta, which sells an investment, insurance, and various other financial products through a network of distributors in the United States.
