

Journal 11

In this video multiple social themes stood out about cyber analyst. Collaborating with your fellow employees is emphasized, as an analyst you will have to work with others and sometimes train and guide your colleagues. Trust is also a theme that is needed for cyber analyst. People put their trust in you to protect their systems from any threats. Lastly the theme that stood out to me the most was networking. Building relationships with professionals in the field. Having social connections can help find new jobs or even get you a promotion, building relationship can catapult your career.
