

CYSE 270 Assignment #8 Shell Scripting Step 1

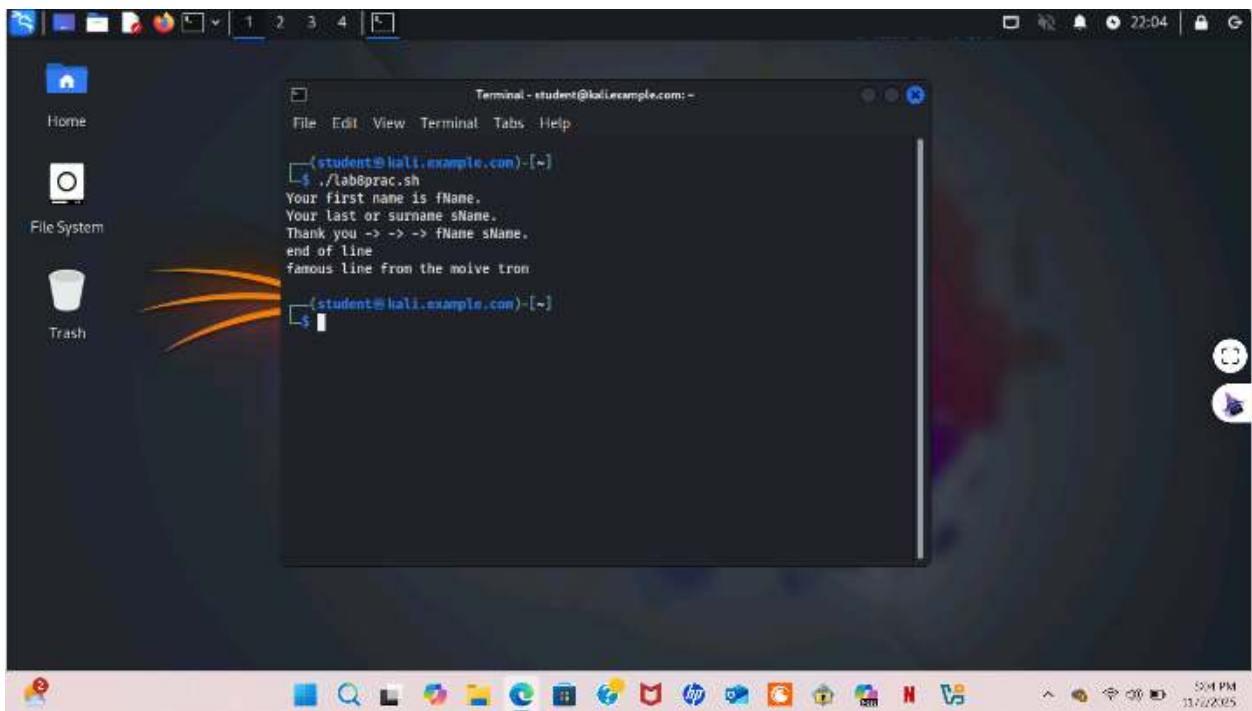

Step 2

Step 3:

Step 4:

Step 5:

```
Terminal - student@kali.example.com: ~  
File Edit View Terminal Tabs Help  
  
(student@kali.example.com)-[~]  
└─$ ./lab8prac.sh  
enter the number to check:9  
input number is not greater than 10  
  
(student@kali.example.com)-[~]  
└─$
```

```
Terminal - student@kali.example.com: ~  
File Edit View Terminal Tabs Help  
  
(student@kali.example.com)-[~]  
└─$ ./lab8prac.sh  
enter the number to check:  
11  
input number is not greater than 10  
  
(student@kali.example.com)-[~]  
└─$
```

On this lab It was pretty easy except for the last step for me, I learned how to shell script with using Vi, it was pretty challenging at first but I got used to Vi in earlier labs so I got used to it. The script learning went very well and was pretty fun as well. The script went well with mt last name and saying thank you, but the numbers had a little bit of trouble on.
