

	Rating	Comments
1. Professional Demeanor	4	
2. Knowledge of Rules and Procedures	4	
3. Responsiveness/Self-Improvement	3	What ways/tips can you implement ^{more involved from prev. classes}
4. Student Relations	4	Good interactions before class w/ indiv.
5. Student Responses to Instruction	3	@ beg. need to acknowledge F2F ^{students}
6. Teaching Plans and Materials	3	Not enough planned ^{students more}
7. Classroom Management	4	
8. Classroom Instruction	3	Be more clear in assignment directions
9. Assessment and Feedback	4	Good interactions
10. Organization/Transition	3	
11. Adaptability/Modifications	3	
12. Overall Rating	3.45	Continue to try + implement feedback + tips from Mr. Litton

AREAS OF STRENGTH:

Mid-way through class assignment, checking in on student progress.
Good feedback to students while moving around individually

AREAS TO BE DEVELOPED:

- Familiarity w/ tech. + sharing screen → this should be 2nd nature by now. **ENGAGEMENT** - find ways to present PP w/o reading off slides. Once assignment is given, get up + move! → good adjustment w/ sleeping student! Inflection in your voice → change it up. Convey enthusiasm.

OTHER RELEVANT/BENEFICIAL INFORMATION:

- If your teacher is out in the hall greeting students, you should be too. That is part of building rapport.
- Try to separate yourself from your computer a bit more
- ~~Don't~~ become more in the moment; ignore distractions (late student in conversation w/ Mr. Litton) but be aware of hands, door knocks, etc.

* Final assignment given @ 1:20. This won't take 40 min. You need to overplan. Better to not cover everything than run out of things. Closure @ 1:30 - Not enough content to cover class period
