

# Matthew Evans

Mevan031@odu.edu

I am looking for a position which will utilize my current computer expertise and offer new learning experiences in my field.

## JOB EXPERIENCE

### **Harris Teeter, Virginia Beach — Cashier/UScan Operator**

April 2012 - April 2022

I assisted customers with their check out, operating self service machines, and assisting in home shop services.

## SKILLS

C++

Unix

Microsoft Office

Game Maker Studio

## EDUCATION

### **Old Dominion University, Norfolk — Computer Science**

January 2012 - Present

I have been studying computer programming part time and am currently a senior expecting to graduate in December 2023.

## Operating Systems

Windows (XP, Vista, 7, 8, 10)

Mac OS

## PROJECTS

### **ODU Football Parking Simulation — C++ program**

A program built to simulate theoretical parking structures and ticket machines offering customers accurate and updated parking availability and prices based on remaining spaces and distance to stadium.

### **Smart Dust — C++ program**

A program simulating hundreds of sensors across a field that record heat and sound to map movement across a map.

## Undergraduate Coursework

Computer Architecture,  
Theoretical Computer  
Science, Advanced data  
Structures and Algorithms,  
Discrete Structures, Object  
Oriented Programming
