

What stop/start signals are used?

"Alright" "listen up" "to Ahead"

How are transitions between activities organized and implemented?

Ms. Trause & the other teacher collect all the kids & as one giant class, they walk to & from the track.

#### EQUIPMENT:

How is equipment distributed and collected?

The teachers pull out all equipment, but students choose what they want to do. Once class is over, the students return their equipment to where they found it. The teachers then put them ~~to~~ where they need to go.

#### STUDENTS' BEHAVIOR:

How does the teacher help students develop a sense of comfort and order?

By allowing the students choose what to do. They don't feel as forced to participate.

To what extent do students demonstrate that they feel positive about themselves, their peers, their instructor, and the tasks they are assigned?

They are quick to participate. There isn't much back talk or whinnying.

What characteristics does the teacher possess that makes the entire lesson an enjoyable, productive experience for the students?

She jumps into games, making them more competitive & fun for the students.
