## Profile

Hard-working and dedicated Mechanical Engineering Technology student with strong attention to detail and experience with technical writing, reading and creating technical drawings, and analyzing issues in a fast paced manor. Offers well-developed analytical skills and excellent team work abilities.

## Work Experience

### **Newport News Shipbuilding, Newport News, VA - *Engineering Intern***

Summer 2023

- Worked in Dept. E15 - Submarine Piping
- Performed detailed flow analysis and consequences of failure projects.
- Gained insight on how piping systems work within submarines and carriers.
- Aided in vendor related issues and requests, along with requests and issues within the shipyard themselves.
- Worked with other related companies to solve issues.
- Worked with colleagues to get projects done in a timely manner.

### **Newport News Shipbuilding, Newport News, VA - *Engineering CO-OP***
