

HW 1.3

CH 6

Tyler Rice
MET 330

91. Given: $h = 2.6 \text{ m}$ $h_1 = 0.85 \text{ m}$ $h_2 = 0.075 \text{ m}$

$$h_j = h - (h_1 + h_2)$$

$$h_j = 2.6 - (0.85 + 0.075)$$

$$h_j = 2.6 - 0.925 = \boxed{1.675 \text{ m}}$$
