# Stranded Cables vs. Solid Cables

Why are they better to use over solid cables for patch work?

- More Flexible
- Cheaper
- Frequently Bent
- Used more often

## Scoring when Stripping a cable

Why is it critical not to score the jacket too deeply when stripping the cable?

- Could possible cut into wires
- Weaker connection
- Don't rank up the jack of the cable
- Reduces Cable Lifespan

## Proper Pin Colors

- Is the standard way to install
- Helps with troubleshooting
- Could cause safety risk if not properly installed
- Helps identify cables and their use
