<div align="center">**Journal Entry 7: Cybersecurity Memes**</div>

Photo 1 (https://unsplash.com/photos/ICTKcvnXx_8):
- *Meme*: Man in a black and white striped polo shirt sitting in front of a silver MacBook with a smiling expression.
- *Caption*: "When you find a secure and trustworthy app for your needs."
- *Relation to Human-centered Cybersecurity*: Demonstrates satisfaction and relief when users discover an app that prioritizes security and respects their privacy, emphasizing the importance of choosing trustworthy digital platforms to mitigate cybersecurity risks.

Photo 2 (https://unsplash.com/photos/mfB1B1s4sMc):
- *Meme*: A person sitting in front of a laptop with a focused expression.
- *Caption*: "When you're verifying the authenticity of a website before entering sensitive information."
- *Relation to Human-centered Cybersecurity*: Demonstrates the cautious approach users should take when assessing the legitimacy of websites to safeguard their personal and financial information from cyber threats.

Photo 3 (https://unsplash.com/photos/gySMaocSdqs):
- *Meme*: Brown and white long-coated small dog wearing eyeglasses sitting on a black laptop computer.
- *Caption*: "When you're the IT expert in the house."
- *Relation to Human-centered Cybersecurity*: Humorously portrays the idea of pets being involved in digital activities, highlighting the role of household members, including pets, in ensuring cybersecurity awareness and practices within the family.
