Emerging Cybersecurity Professional

I am an emerging cybersecurity student yearning to learn more about the field with a positive attitude and a strong work ethic that I can use to conduct operations for the government. Interested in Linux Operations, Bio-Cybersecurity, Digital Forensics, and Windows Systems Management.

Education

Bachelor of Science in cybersecurity | Expected Graduation May 2025

GPA: 3.73

Expected Masters in Cybersecurity, minor in criminal justice | Expected Graduation date May 2026

- **Magna Cum Laude**
- **GPA 3.73**

Innovative Cyber Challenge 2024

This is a yearly team-based challenge where cyber students from multiple colleges participate in a competition to identify and present a challenge/issue that is prevalent in the cybersecurity and how it can be solved/prevented. The challenge primarily incorporates innovation, analytical and critical thinking skills to get us better equipped at deal with cyber issues in the future job opportunities.

Technical Skills

Projecting Old Dominion University Class of 2025 Cybersecurity graduate that is seeking government employment in cybersecurity and the criminal justice field.

Linux | Wireshark | Meterpreter | N-Map | Bash Scripts | Powershell | Nessus | PfSense | Metasploit | Pen Testing | CTF | Kali | Ubuntu | Windows | Virtual Machines | Python | Forensic Analysis | VirtualBox | Adaptable

Relevant coursework

Cyber Techniques and Operations | Digital Forensics | Python Programing | Linux System for Cybersecurity | Into to Information Systems | Windows Systems Management and Security | Cyber Elections Security | Introduction to Criminology | Cyber Law | Introduction to Network and Security | Introduction to Bio-Cybersecurity | Precalculus

Professional Experience and Internships

Home Depot | Sales Associate | April 2016- present | Lynchburg, VA

- I served as a sales associate at the Home Depot for the hardware, electrical, plumbing, lumber, and garden department back home. It was my first job and throughout the years, I have been given the employee of the month award twice during my time there.

IT Internship | IT department | E.C. Glass High School | Lynchburg, VA | December 2017 – June 2018

- During my twelfth-grade year in high school, I did an internship course with the school's IT department. The internship consisted of me repairing students' and faculties' Chromebooks and personal laptops, in replacing screens, keyboards and batteries. They would show me some tricks sometimes, like how to gain admin access on s schools' computers, but it was mainly more hardware based.

Achievements

Dean's list at Old Dominion University: Fall 2022, Spring 2023, Fall 2023
