

Find Your Dream Job (100 Points)

Let's find your dream job! You will do research to find your dream job in the health field and what type of education and skills you will need to get this job. The purpose of this activity is to help you gain a better understanding of how your intended major, future education goals, and skills need to be applied to the career you want. **You will be expected to discuss this in class and it will be included on your ePortfolio.**

Research - 50 points

1. List your dream job or jobs. In a perfect world, one day you will be ___NICU Nurse_____. Briefly describe what you'll do in this role. What knowledge, skills, or abilities do you think you will need for this job?

When I become a NICU Nurse I will be helping the doctors deliver the patients babies safety while also looking after the mom and making sure everything is good with her and that she is not at risk. I would also take the baby's weight and make sure the mom doesnt become a victim of malpractice or discrimination . Some skills I would have to have are multitasking and critical thinking skills. These are the basic skills I would need to have not to put someone in danger.

2. Complete the quiz at <https://advance.appily.com/careers/healthcare/quiz>
3. Were you surprised by the results of the quiz compared to what you listed as your dream role? Yes i was surprised
4. Find at least 3 job postings that seem close to your dream job. Examples of where to search: Indeed.com, LinkedIn, USA Jobs, Glassdoor, or just Google the job you want to find!
5. Copy and paste the job posting links below. Make sure you include the following information:
 - a. C. Identify the salary range
 - b. How much experience would be required to apply for that job, what degrees, certifications or training is required?
 - c. What skills are and tasks are involved in performing the job you have found?

1. Job Posting Number 1: Executive BPO Healthcare Sector salary
 - a. Identify the salary range -\$128,070 per year

- b. How much experience would be required to apply for that job, what degrees, certifications or training is required? You need at least 15 years of experience you have to have a background in medicare, aca, a medicaid segments
- c. What skills are and tasks are involved in performing the job you have found? You will be doing patient registration, data management, and claims processing to external service providers

2. Job Posting Number 2: Hospital CFO

- a. Identify the salary range 120,000-250,000
- b. How much experience would be required to apply for that job, what degrees, certifications or training is required? 10 years of healthcare experience and specific financial leadership
- c. What skills are and tasks are involved in performing the job you have found?

I would have to oversee the financial operations of these healthcare organizations and make sure that they have efficient resources. They also manage the budgets and financial strategy to support the patient care.

3. Job Posting Number 3: Director mental health outpatient services

- A. Identify the salary range 92,175
- B. How much experience would be required to apply for that job, what degrees, certifications or training is required? Several years of health experience in mental health or behavior health management
- C. What skills are and tasks are involved in performing the job you have found?

I would have to oversee deliveries of mental health care in outpatient settings. I would also manage staff and implement strategies to improve patient outcomes and access to care.

Part 2: Apply to your Dream Job - 50 points

- 1. Think about the job postings you submitted for Part 1, and the knowledge, skills, and abilities you'll need. Did these jobs match what you had in mind for your dream job? Did you find your dream job? Describe the similarities and differences.

No this does not match what i had in mind for my dream job. The salary is good, it doesn't seem as though they really interact with the patients because they do like data management instead of taking care of the people in the hospital. No, I did not find my dream job because it seems as though I would be better behind the scenes but I want to be in them and directly help those in need.

2. From the 3 job postings you found, choose one job you want the most, and use the list of skills required for the job of interest. Identify skills you already have and identify skills you are still building or need more experience performing. Discuss options to sharpen or learn the skills you will need to gain.

If i had to pick one i would probably pick Director mental health outpatient services. For this job you need to have skills like leadership and management, clinical expertise, communication, problem solving, organizational skills, financial skills, and cultural competence. Some of the skills I already have are problem solving, communication, organizational skills, and leadership. I would have to work on the rest of the skills ust chrome lack of experience. The options I have to sharpen the skills that I am missing is to stay in school and retain the knowledge that they would teach me.

Rubric

Criteria	Excellent (100-90 points)	Sufficient (89.99-80 points)	Minimal (79.99-60 points)	Unacceptable (59.99-0 points)
Inclusions of requested information and Correctness of Assignment	Includes all requested information and goes into detail for each question. Professional Interviewed works in a health or health-related field. Professional's education must have an associate's degree or higher.	Includes most of the information requested. Correct, but limited details provided. Professional Interviewed works in a health or health-related field. Professional's education must have an associate's degree or higher.	Missing or incorrect information. Professional Interviewed works in a health or health-related field. Professional's education must have an associate's degree or higher.	Professional does not meet the criteria for the assignment. Does not answer any of the questions.
Ease of finding information	Assignment is easily found from the menu bar of the student's e-portfolio and is clearly identified. Fonts are easily read and layouts are appropriate to the assignment. Picture of the health professional is included.	Page is viewable but not easily locatable. Fonts are readable, information is present but does not have a logical flow.	No Logical flow to information. Missing, and/or partially answered questions. Font is illegible.	No page, or information provided.
Writing quality of assignments	Writing is clear, concise, and well organized with excellent sentence/paragraph construction. Thoughts are expressed in a coherent and logical manner. There are no spelling, grammar, or syntax errors per page of writing.	Writing is mostly clear, concise, and well organized with good sentence/paragraph construction. Thoughts are expressed in a coherent and logical manner. There are no more than three spelling, grammar, or syntax errors per page of writing.	Writing is unclear and/or disorganized. Thoughts are not expressed in a logical manner. There are no more than five spelling, grammar, or syntax errors per page of writing.	Writing is unclear and disorganized. Thoughts ramble and make little sense. There are numerous spelling, grammar, or syntax errors throughout the response.
