**1. What are the connections between the disciplines addressing entrepreneurship at ODU?**

Entrepreneurship at ODU is versatile. It offers equal support for all disciplines. There are many examples that have got support from ODU to develop their idea and succeed with the development.

**2. Is entrepreneurship an art or science?**

Entrepreneurship does not belong to with categories. It is a practice of an idea or knowledge that a person has, and it can be in any disciplines. Entrepreneurship aims at the betterment of the community.

**3. How is failure good?**

Failure is good because it is part of the life. Entrepreneurs will make mistakes and learn from mistakes. Entrepreneurs will learn more from mistakes than success. Even though a failure in business also helps entrepreneurs to learn and innovate or tweak the ideas.

**4. What have I learned from failing?**

Failure is part of the life. Success will not be accomplished without the failure. It will come sooner or later in the life. It is an individual's prospective to thrive out of failure and succeed in the future.

**5. What ethical issues might arise related to what I am working on?**

There may be issues in the adaption of cyber awareness module in high school students. Some school boards may not be ready to accept the innovation and educate their students from early age. Moreover, uniting all school boards will be a challenge.
