1. Am I an entrepreneur?

I am an entrepreneur. Entrepreneur is someone who constantly involves in activities that are to make new things, make things simpler, and make things easier for the community. The activities can be for only one person, but it may inspire the next person from its usage and visualization to take risk and achieve that goal. Taking risks is the biggest positivity of an entrepreneur. I believe life is about taking chances because if we do not take chances, we would not know what will happen.

2. What is success?

Success is known as an accomplished goal that an entrepreneur wants to achieve.

3. Am I a self-starter? How well do I follow through on my ideas?

I am a self-starter if I see that I can do it or not. Most of the times, I would like to begin and take risk. I do follow my ideas that I have for a particular achievement. If I feel that there is something that I can not do it, so I wait for the next person to do it and learn from it. Eventually, I would love to accomplish that task by improvising.

4. How does ODU view entrepreneurship?

Entrepreneurship at ODU is viewed as an important aspect of students' career. There are not many entrepreneurs, so the goal is to create more entrepreneurs who can change the course of the life. Some students may have achieved an exceptional success, but they may be fearing out about the external life and pressure. They may just need a kick to boost their journey, and ODU provides the kick to succeed and achieve success in the future.

5. What is my role in this ecosystem?

The role in the ecosystem is to create something new and continue the hunger of making something new for the future. There are not many persons who are willing to take risks to achieve something. The risks have two sides: positive and negative. Entrepreneurs are the ones who keep taking risks until they succeed.
