

This fall I attended many fun ODU sports games! In doing this I got to hangout with my friends, show my school spirit, and watch some entertaining games. This particular picture was taken at the ODU vs. JMU football game!

This fall I was able to go to Kauffman mall with my friends to meet all the cute puppies! In this photo one of my friends Maggie is petting just one of the many adorable dogs we got to meet that day. This event helped to relieve stress and bring joy to my day as I love dogs so seeing so many made me really happy.

This fall my teammates and I had the opportunity to attend dinner at the President of Old Dominion's house. Our team, as well as all other sports teams, were able to join together as a community and share our appreciation to the President as he does so much for all of us!

My teammates and I had the pleasure of hosting a 9/11 dinner for our local fire department! It was so cool getting to hear more about what they do for work and show our appreciation for everything they do for our community.

A group of us went to Kauffman Mall many times over the fall to interact in all of the events they had going on. One fun event I got to watch was the Dirty Buffalo wing eating contest that one of the my teammates Julia participated in!
