EXECUTIVE REFLECTION

Team A Suffolk

Christopher Kundrat, Reema Chakma, Shekhinah Green

Client Overview

- Our group was assigned to working with the City of Suffolk, as we worked with Dr. Kiriakou, Mr. Joshua Cox, and Mr. Miller alongside meeting with the networking team within the City of Suffolk

Client Engagement

- Upon meeting with the clients for the first time, we established a schedule of meeting with them, with one visit on premise the rest being weekly through Microsoft Teams
- Alongside that, we had established a form of communication through our team leader and Joshua Cox, as they preferred our emails to be encrypted to ensure confidentiality

Project Evaluation

- After finishing our projects and presenting them to the City of Suffolk, we were able to evaluate our project
- Upon receiving feedback from the rough draft/dry runs our group was able to improve our presentation to where we could successfully communicate remediation and mitigation strategies

Team Dynamics

- **Good communication**
- **Weekly Meetings with client**
- **Collaboration**

- **More team meetings**

Highlights

On Site Meeting

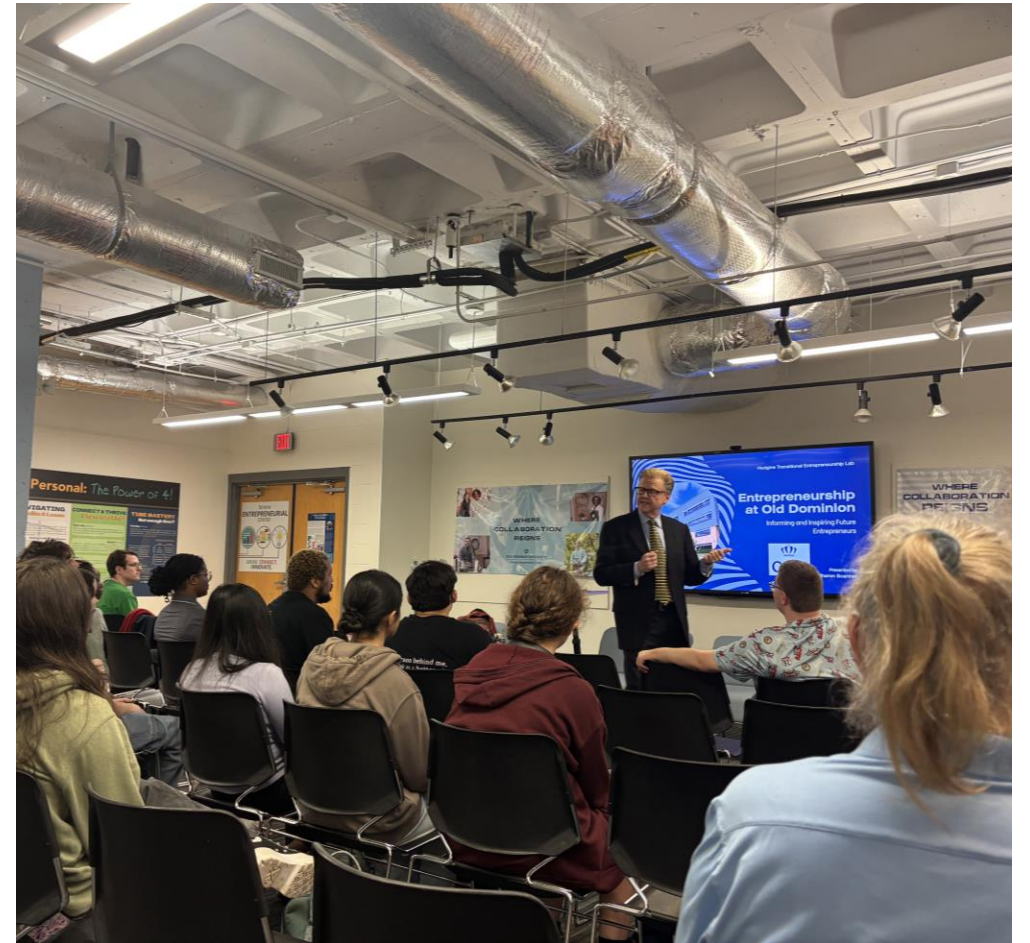

Dry run presentations

Final Presentation

Course Highlights

Keep

- Guest Presentations
 - o Dr. Baki sessions: Design Thinking, Empathy (Yes, And)
 - o Valor Checklist: Greg Tomchick
 - o Kristin Stephens - *Leadership and Communication Presentation*
 - o Genevieve Marquardt, Cybersecurity Advisor (CSA)
- Government businesses

Recommendations for Future Teams

Try to learn as much as possible

Take notes

Take initiative

Be prepared

Participate

Practice for presentation

Course Feedback

In-class activities were very fun

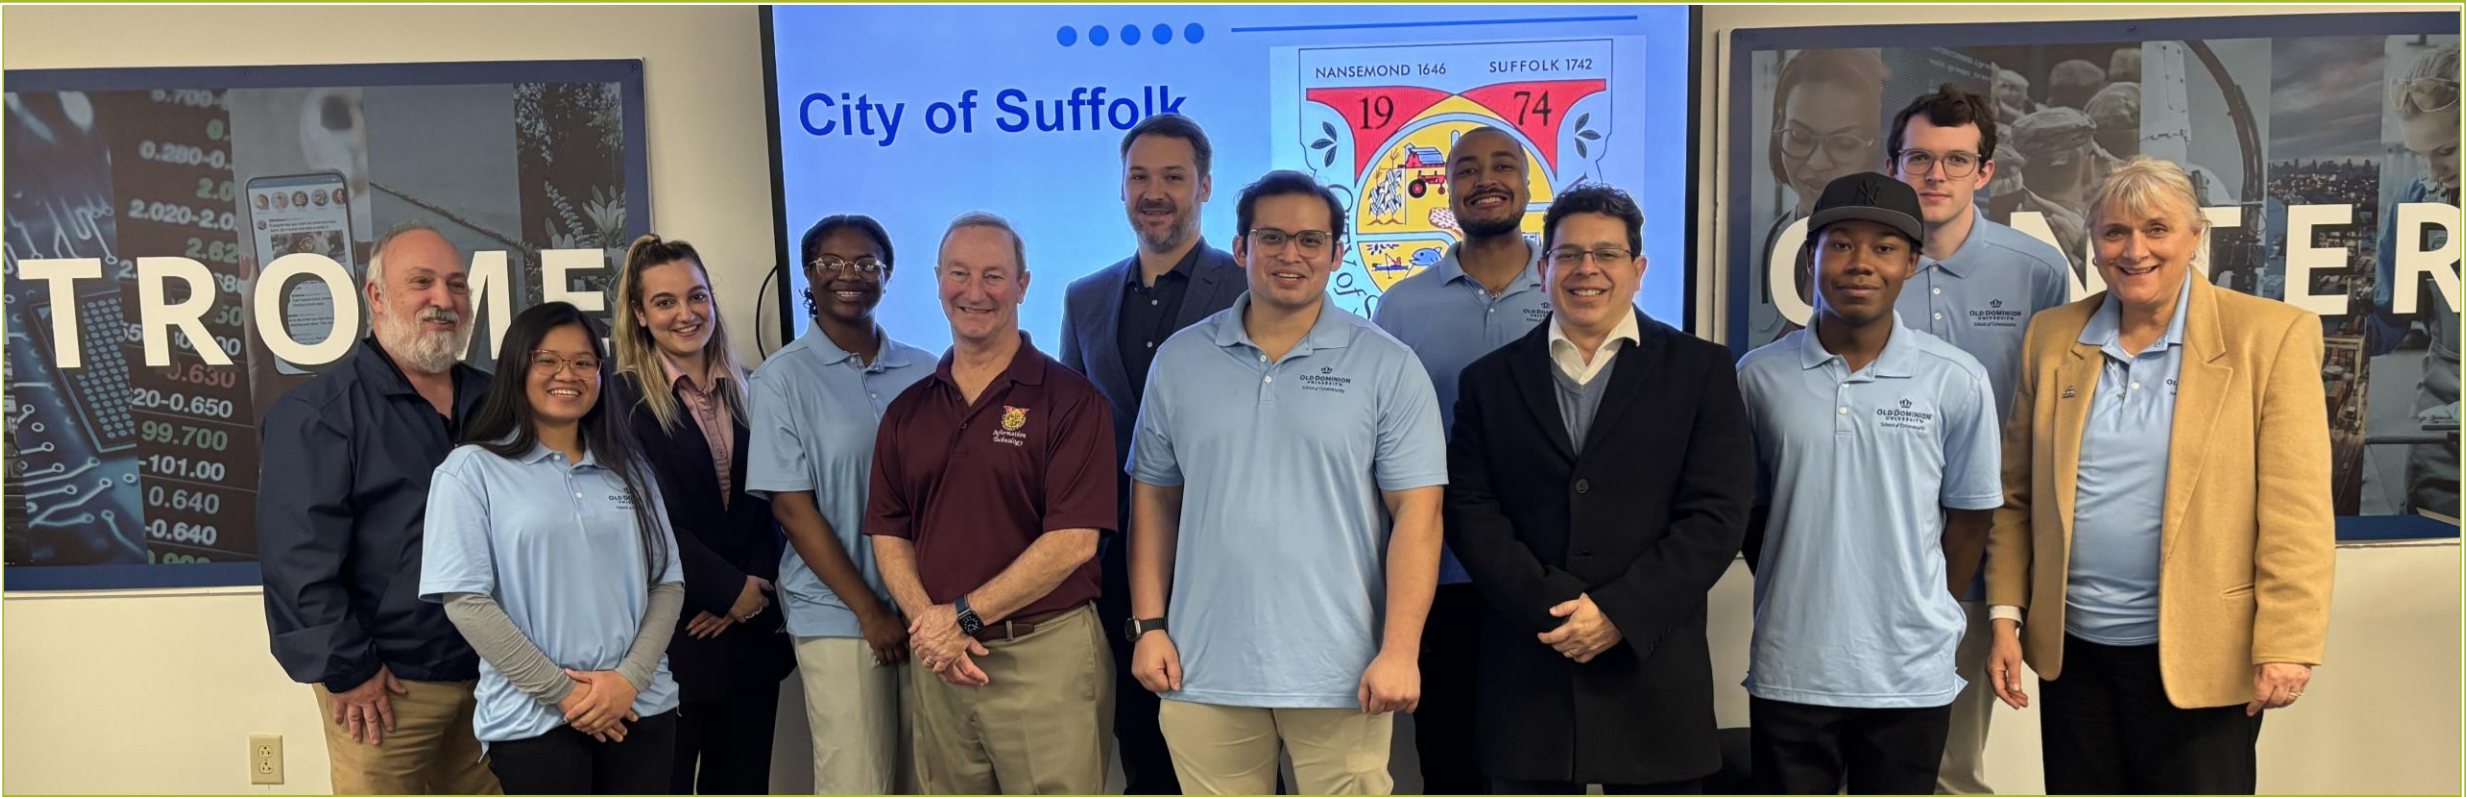

Dr. Baki sessions were very helpful.

Overall, really good hands-on experience

Design thinking

Empathy

Team play

THANK YOU!
