1. Task description: Follow the lessons and participate in class sessions.
2. What did I learn by completing this task?: I am improving in areas of the French language that I found difficult last semester.
3. What did I do well?: For the most part, I have been able to understand the in-class assignments.

4. What could I have done better?: I could have focused more on memorizing the verb forms and word genders.

5. What were some difficulties I encountered?: I find that memorizing words can be relatively easy, but grammar is the most difficult aspect of learning a foreign language.
