

Test 1 homework reflection

Homework 1.1

In homework 1.1 we practice determining the heat transfer of conduction, convection, and radiation of basic shape.

Homework 1.2

In homework 1.2 we practice solving heat transfer of 3D shapes using the resistance method.

Homework 1.3

In homework 1.3 we practice solving for heat transfer of 3d shapes that have a specific shape factor and object that have extended surfaces.
