List Strengths of the Presentation: <i>Content, visuals, organization, Pacing/volume, great questioning</i>				
List Suggestions for Improvement: <i>as we discussed, normal to use notes earlier w/ teaching + will improve w/more ☺ Flip →</i>				

- When reading off slides, try to still look ahead so all can hear (again will improve w/ more lecturer under your belt)
- 1 or 2 slides you showed lack of confidence (very minimal); fake it till you make it!
- examples w/ your own patient experiences were excellent + help us connect dots; open-ended? examples were great!
- did so good w/ pausing + pacing; timing was perfect for lecture time
- questions to check understanding + experiences were also great
- bandage or blanket for tooth → such a good analogy!
- puffer jacket for calc! so good! well explained + great tips for applicability
- lots of great application info, well done
- Study aid tables - nailed it 😊
- Kahoot w/ prizes = Ⓢ was well received + put together!
